## Downtown Construction Update >>>

- Currently the southbound lanes downtown have been closed, and traffic has been redirected to the northbound lanes.
- Work is anticipated to switch to northbound lanes downtown the week of August 16th. Northbound traffic will be shifted to the southbound travel lane during that time
- We are still trying to determine how the 2nd Street/Coulee Road intersection will be staged to complete milling, joint repair, and paving work
- Closure of access to North Hudson is currently scheduled to begin on Monday, August 23rd following Pepper Fest. The City is still working with the contractor and WisDOT to see if that schedule can be moved up to keep the closure period out of the first couple weeks of school.
- The City and WisDOT ask all those traveling along 2nd Street in the downtown area, whether walking, biking, or driving, to be aware of construction operations around you. Please make sure to follow all traffic control devices and signs, particularly those for road closures, to make sure the work happens as safely and efficiently as possible

If you have any questions, comments, or updates please reach out to the City of Hudson 715-386-4765

## 15- Minute Parking Signs

During construction many of the original 15 minute parking signs were temporarily removed. All the original signs have been placed back up, along with some new temporary ones during the construction project. After the construction project is complete, every block face in downtown will have at least one 15 minute parking space.

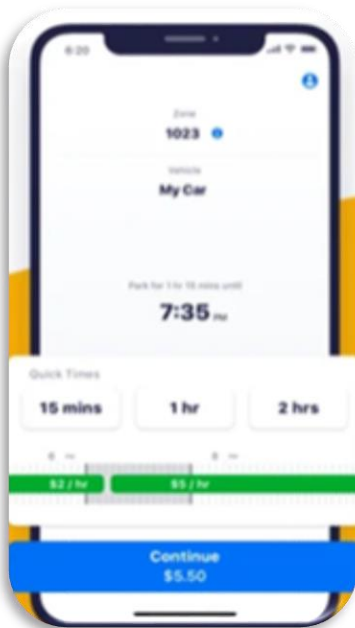

We want to accommodate to all business, that have customers utilizing a curbside service or just a quick 5 to 10 minute errand that needs to be ran without having to plug the meter.

Once construction is complete, we will have permanent signs placed where all the signs are located. Please make sure you are only staying for 15 minutes or less. These parking spots are currently be enforced.
